SUBJECT: (Optional)				
FROM: William F. Donnelly Deputy Director for Administration		EXTENSION	NO. DDA 86-0862	STAT
			DATE: 1 May 1986	
TO: (Officer designation, room number, and building)	DATE		OFFICER'S INITIALS	COMMENTS (Number each comment to show from whom to whom. Draw a line across column after each comment)
	RECEIVED	FORWARDED		
1. Acting Director of Information Technology 2D00 Hqs Bldg.				<p>I think we have an opportunity to do it right! Because the 3270 ATs which the DI is about to purchase will come with a new keyboard, OIT should obtain a few of them with new keyboards and <u>formally</u> test the software. This may delay the mass procurement for 2 - 4 weeks (I hope that's all), but OIT will look more professional and sharper if this testing has been accomplished.</p> <p>I think you ought to specify what we mean by testing. Of course there is a basic "powered up" test to determine if basic functions work. Of course With some of the products we should do indepth testing to determine if there is full functionality.</p> <p>I would ask our IBM marketing people to get some 3270 ATs with new keyboards in here ASAP so that we can run the tests <u>prior to</u> making a bulk buy.</p>
